

STORM KILLS 75

Towns Wiped Out in South and Central West.

ALABAMA IS WORST SUFFERER

Six Men Thought to Have Gone Down with Fishing Smacks in Lake Erie—Town of Lower Peach Tree, Ala., Practically Wiped Out and Thirty Persons Killed.

DEATH TOLL OF STORM.

Columbus, O.	3
Indianapolis, Ind.	2
Frankfort, Ind.	1
Lafayette, Ind.	1
Spring City, Tenn.	1
Walnut Ridge, Ark.	1
Total	75

In a blizzard which swept the central west and south, seventy-five persons were killed and over 100 injured. Many towns were wiped out. The wind at times blew at the rate of fifty-five miles an hour. Women and children and strong men were hurled from their feet.

Blazing a semicircular trail, the storm, which at points gained hurricane force, struck the gulf states first, then swung northward and eastward over Louisiana, Alabama, Mississippi, Arkansas, Tennessee, Kentucky, Illinois, Indiana, Michigan, Ohio and New York.

Six May Be Drowned.

Two fishing smacks, containing six men, are supposed to have gone down in the lake just off Sandusky, O. An empty boat, believed to belong to one of the parties of fishermen, was found wrecked on the rocks at Danbury, O. Birmingham, Ala., reported high winds and damage to a furnace. At Thomasville, Ala., twenty-one persons are known to have been killed, all but two of them whites, and increased estimates of the total dead.

Railroad losses will be enormous. Every line in the south has wires down, trestles and bridges damaged and in numerous places tracks strewn with debris. Crop, timber and general property damage is incalculable.

Alabama Town Wiped Out. Lower Peach Tree, on the Alabama river, about thirty miles from Pine Hill, Wilcox county, was practically wiped out by a tornado.

Reports are to the effect that thirty persons have been killed and many injured. The tornado passed directly through the town, and but few houses escaped destruction.

Lives Lost in Indiana.

Two lives were lost by the Indiana storm, which wrought havoc throughout the state, causing thousands of dollars damage to property. Omer A. Vice, a cab driver at Frankfort, was killed when the roof of a building struck him. Henry Waller, a workman of Lafayette, was crushed to death by a sign that blew down on him. At Terre Haute, a young girl was fatally injured by a brick, which fell on her.

A cyclone overturned a school stack near Rome City, injuring ten pupils. Mary Chapman is internally hurt; Jren Baumgartner's shoulder was dislocated. A schoolhouse was blown down between South Millford and Rome City.

SUFFRAGETTES USE TORCH

Country Residence of Lady Amy White and a Club House Burned. Near London, Eng., two "arson squads" of militant suffragettes succeeded in destroying property worth \$100,000. One squad burned the country residence of Lady Amy White at Englefield Green, near the Thames. The other squad fired the buildings of the golf club at Weston-Super-Mare, a fashionable summer watering place in Somersetshire.

Lady White is the widow of Field Marshal Sir George White, the hero of Ladysmith in the Transvaal war. Her house was a mansion standing in spacious grounds.

FIRE IN CARROLL, IOWA

Masonic Temple and Department Store Totally Destroyed. At Carroll, Iowa, a fire which started in the basement of J. H. Strohn's department store totally destroyed that building and the Masonic Temple, causing a total loss of \$85,000.

The local telephone exchange was burned out and several lawyers and physicians lost their office furnishings, including valuable libraries. Insurance covers about two-thirds of the loss.

FRENCH CABINET RESIGNS

Action Follows Vote of Lack of Confidence by Deputies. At Paris, France, Premier Briand and all the members of his cabinet handed their resignations to President Poincare, at the palace of the Elysee. This followed a vote of lack of confidence in the chamber of deputies.

Washing the Dishes

1st PRIZE—CHECK FOR \$1.00

To ye editors of The Times:—Don't you think you were a little unkind to limit your offer to women whose husbands "help with the house-work" and by this, leave out the model husbands who tend the babies, nurse their wives when sick and do a hundred and one more things to make life easier and happy. Now, I would brag about my husband's helpfulness, but woe-to-me if it is restricted to dishwashing or wiping. He says he is a "dandy dishwasher, used to do them for his mother" but I have to take his word for that.

I feel that I would give my experience just as a warning to young wives not to "put off till tomorrow what can be done today." When we had only been married about three months the maid went home for the week-end, as all maids delight to do. Hubby was a little late coming home to supper and as we had an engagement for the evening he said "just pile the dishes up and I will help you with them in the morning. Mother often did that way." Thinking that was good advice, I followed it. What happened? Just the usual result. Up late Saturday night, up later Sunday morning. No time to wash dishes and get to church on time, but more good advice, "Oh, just pile these up too, and we will do 'em all after dinner." Now being young and a little proud of my culinary ability a good many things were

dirty getting Sunday dinner so by the time we were ready to do 'em all, the table was full the sink was full and the stove was full. Now hubby's Sunday trousers mustn't get soiled, so a large apron was procured and pinned around his waist.

This operation was hardly completed when a small boy appeared at the door and these were the words that rang in my ears, "Consin—Uncle—, wants to see you right away." With a snicker the apron came off and that man disappeared for two and a half hours. Of course, by that time, everything was in order, but a question that has never been answered has always haunted me, was I the victim of a "put-up job?" Hubby won't tell, Trusting that my experience will be a warning to young wives and not a hint to young husbands, I remain, Yours truly,

2nd PRIZE—A YEARS SUBSCRIPTION

Dear Editor:—I feel sure that I have a very dutiful husband. There is a time each year that he will cook his breakfast, and is able to cook a very good one, not only for himself, but his friends will dine with him. That is during hunting season, but after the hunting season is over he forgets all about cooking, dishwashing and kitchen, so it would please me to have a long hunting season to keep him in practice. Yours truly, Mrs.

WILL MAKE CAMPAIGN.

Travelers Elect Officers and Choose Committee to Raise Funds.

"Marshfield for the 1914 convention." This will be the motto in the mind of every member of the the Marshfield council of the United Commercial Travelers from now on until the 1913 convention is held at Janesville this June. The council met Saturday evening and elected officers of the following:

- Senior consul—L. J. Randles.
- Junior consul—Robert Cork.
- Conductor—Fred W. Kohl.
- Page—E. H. Chilcote.
- Sentinel—Edward Furstenberg.
- Executive committee—Orin R. Hughes, A. G. Felker.
- Delegate to the 1913 convention—Frank R. Upham.

A banquet and smoker followed the meeting. The council voted to give an elaborate formal dancing party about the first week in May, for the purpose of raising funds to send the Second Regiment band to Janesville in June in order to make the capture of next year's meeting a certainty. A committee consisting of Mayor Robert Connor, I. Brody and F. E. Tice was given charge of selling tickets, and when these gentlemen make their effort to raise the necessary funds they should be well received everywhere.

CITY OFFICES CHANGED.

Some Shifting Around on First Floor of City Hall.

Friday was "moving day" at the city hall. As the work of the water and electric light office is henceforth to be divided between the city clerk and the city treasurer, several changes were made with the idea of speeding along the business. City Clerk R. J. Schatz and City Treas. George J. Leonard, clad in overalls and wearing their usual pleased expressions, were engaged all day in transferring their belongings and city records. City Clerk Schatz is now camping in the electric light office, and Treasurer Leonard has the city clerk's office, with its vault room. The office vacated by the city treasurer may be assigned to City Assessor W. S. Albright or may be given the new superintendent of the Marshfield Water, Electric Light and Power company.

Meter readings will be reported to the city clerk, who will make out all bills and turn them over to the treasurer. Users of water and current will pay at the treasurer's office.

Everything in Hardware at Kliner's

A Pointer On Milk Cans

Three Superior Points Contained in Kliner's Can

1st, Sanitary:—Having solid steel top hoop securely soldered to body, there is no chance for moisture to gather under it as there is in case of the hollow hoop used by most can makers, thereby rendering it unsanitary.

Stamped Bottom:—bottom, body and bottom hoop securely riveted together and soldered, sealing all joints and seams, making it positively sanitary. A sanitary pitch cover.

2nd, Quality:—The material contained in this can is the best money can buy, together with good workmanship makes it a can of Quality.

3rd, Durability:—The solid steel top hoop makes the can firm and rigid. The bottom hoop securely riveted to the body and bottom, insures beyond all doubt a bottom hoop that will never become loose. Insuring a long life and durable can.
