

DOUBLE VICTORY WON BY FOOTBALL TEAMS

Saturday was a big day for the Marshfield High school, for both football teams won their game. The High school second team romped away with its heavier Stratford opponents to the tune of 52 to 0. The game was decidedly one-sided, but the aggressiveness of the local boys kept the game interesting even after they found they could score almost at will. The Stratford boys played a plucky game, but were clearly outclassed. Bulmer, Hall, Craemer, Scheibe, L. Heiser and Bly played the best for Marshfield.

The "regulars" were not to be outdone by the "scrubs" so they started after Medford with a determination that brought them a 16 to 6 victory. Following is a detailed story of the game:

FIRST QUARTER—Capt. O'Malley kicked off to Marshfield and McCarr brought the ball back fifteen yards. The local boys started a grand march down the field, but Medford intercepted a forward pass on the forty yard line and carried the ball to the Orange and Black five yard line. After an unsuccessful attempt to puncture the line, Capt. O'Malley skirted his right end for a touchdown but failed to kick the goal. Marshfield received the kick-off and again started a procession toward the Red and White goal. Several costly fumbles denied the locals a touchdown in this quarter. Time was called with the ball in Marshfield's possession on the Medford twenty yard line. Score, Medford 6, Marshfield 0.

SECOND QUARTER—The Orange and Black was not to be denied, and in six plays they had registered a touchdown with Capt. Whittlinger carrying the ball. Whittlinger kicked goal giving his team a 7 to 6 lead. Medford chose to receive the kick-off, but was kept on the defensive most of the time. The High school line played a furious game, throwing their opponents for losses repeatedly. Finally, Capt. O'Malley attempted to punt from his own goal line, but Whitney tackled him before he could kick the ball, thereby registering a safety. Medford scrimmaged on their twenty yard line and were soon forced to punt. Marshfield had carried the ball to the Medford twenty yard line when time was called. Score, Marshfield 9, Medford 6.

THIRD QUARTER—Both teams came back with a fighting spirit which made the outcome of the game an uncertainty for some minutes. The superior team work of the locals soon showed itself and on straight football they carried the ball down the field—Reynolds finally carrying it across the goal line. Whittlinger again kicked the goal. Medford soon lost the ball after the kick-off and Marshfield was denied another touchdown only because they could not back through the tree which decorates the football field. Medford punted out of danger. The quarter ended with the ball near the center of the field.

FOURTH QUARTER—The last quarter found Medford playing desperately to score. They tried several forward passes, but only one of them was completed. Marshfield seemed content with the score and stayed on the defensive. The game ended with the ball in the possession of the local team on Medford's 20 yard line. Score—Marshfield 16, Medford 6.

The game was featured with clean, fast play on the part of both teams, and there were no injuries of a serious nature. Marshfield outclassed Medford more decidedly than the score would indicate. The locals were forced to punt only twice during the entire game. The whole team showed a complete reversal of form from that displayed at Wausau and they give promise of giving Stevens Point a good battle there next Saturday.

The Marshfield line-up: Marsh, center; Senn, L. G.; Vaughn, Lundgren, R. G.; Whitney, L. T.; Goetz, Vaughn, R. T.; Doerge, Scheibe, L. E.; Tice, R. E.; McCarr, Q. B.; Thiel, L. Heiser, L. H. FARMERS ASK FOR TELEPHONE SERVICE

A hearing before the railroad commission was held Thursday afternoon in the city hall to settle a controversy between the stockholders of the North Lincoln Telephone company and eight farmers within a mile and a half of their line. The North Lincoln Telephone company is organized for voluntary service only and all subscribers must be stockholders. The trouble arising between the eight prospective subscribers and the stockholders is the fact that the new subscribers desire to secure service on the line without becoming stockholders. This must be the same as that which the stockholders are charged, but the stockholders argue that the new subscribers who would not become stockholders could secure all the benefits of the line without taking upon themselves any expense or responsibility connected with it, other than monthly rental.

The line is not a paying proposition from a business standpoint, and for this reason no other company desires to erect a new line through this territory, even though there would be ten new subscribers who have signified that they would become stockholders besides the eight spoken of before.

The farmers have erected the line for their own use just as any number of farmers might get together and purchase a piece of farm machinery to use between themselves to eliminate greater cost and to secure the service they desire. They are willing to extend a welcome to any of the other farmers who will become subscribers by becoming stockholders and bear as much of the responsibility as themselves, but this is where the trouble hinges and the railroad commission has been called in to settle it.

The commission was represented by R. W. Clark of Madison. A decision will be given later.

SENATOR HUSTING

SPENDS DAY IN CITY

United States Senator Paul O. Husting of Mayville was in Marshfield for a few hours Thursday, on his way from Grand Rapids to Neillsville in the course of his speaking tour of the state. Accompanied by A. B. Rosenthal, a special representative of The Milwaukee Journal, Senator Husting arrived on the morning train and was met by a number of Democrats at the Soo station. Chairman R. J. Strauss of the county committee had an automobile in waiting and the visitors accompanied by Mr. Strauss, E. C. Pors and E. B. Barr made a trip of inspection to the big stock barn at the Fair grounds and thence took a tour of the city. Senator Husting expressed himself as astonished at the rapid progress Marshfield has made since he visited the city during the state campaign of 1914. The Journal representative, Mr. Rosenthal, was somewhat disappointed to find that Marshfield had no wolves running at large on the nearby country roads, but was recompensed partially when informed that within the last month two large black bears have been shot not far from Marshfield. At noon the visitors were guests of the Brackendorf cafe at a duck luncheon.

During the afternoon Senator Husting held an informal reception at the city hall and notwithstanding a heavy rain many Marshfield people ventured out and shook hands with him. He left on the 4:20 train for Neillsville. A large number of railroad men complimented him highly for his vote in behalf of the eight-hour law.

Many pioneer German-Americans took occasion to call upon the senator and assure him of their cordial support this fall for the Democratic ticket. "I find it so all over the state," said Senator Husting later. "We are all American citizens and the best proof of President Wilson's neutrality is that the patriots of all parties, denominations and descent are supporting him. I am confident he will carry Wisconsin by a large majority."

THEY ARE FOR HUGHES.

St. Louis Republic: Where in the length and breadth of the land is there a beneficiary of special privilege who is not against Wilson and for Hughes? Where is there an enemy of the income tax who is not against Wilson and for Hughes? Where is there a man who has profited by the "iniquities" of Schedule K, who is not against Wilson and for Hughes?

Where is there a believer in the divine right of Wall street to rule the finances of the nation who is not against Wilson and for Hughes?

Where is there a tariff lobbyist—in semi-retirement, chewing the cud of hope—who is not against Wilson and for Hughes?

Where is there a railroad lobbyist who is not against Wilson and for Hughes?

Where is there a friend of monopoly, the real old-crusted sort, who has proved his faith by his works, who is not against Wilson and for Hughes?

"What do you know about that—a MILD cigarette that satisfies!"

Chesterfields have done "the impossible"—they satisfy and yet they are not strong. They are MILD! Chesterfields do for your smoking what bacon and eggs do for your breakfast—they satisfy.

And yet Chesterfields are MILD—that's the point.

No other cigarette can give you this new enjoyment (satisfy yet mild) because no cigarette maker can copy the Chesterfield blend.

This blend is an entirely new combination of tobaccos and is undoubtedly the most important new thing in cigarette making in 20 years.

The misunderstanding that seems to have arisen between some of the "boys" in Texas and the folks at home regarding the disposal of the money raised by the Company A & Band Benefit club is unfortunate, but we do not believe it necessarily is serious.

There is little doubt in the mind of anyone acquainted with either the guardsmen or the benefit organization composed of former guardsmen, that the matter will be satisfactorily explained in due time.

To put the whole thing in a few words, it looks as if there had been in the first place a misunderstanding as to the exact amount remitted to the company; and in the second place, there is a strong probability that one of the drafts sent to the company has been lost in the mails.

Comparison of accounts will explain away the first, and time will dispose of the second matter. In the meantime, friends of both organizations (and that means everybody in Marshfield, at least) will withhold their critical comments and allow the proper officers of both Company and Band one the one hand and Benefit club on the other to get the matter into shape for a complete public statement.

It might well be said that whatever Marshfield has been able to send has been too little; and on the other hand, that whatever has been received in this way by the boys in Texas has been more than was asked, and was offered in the fullest spirit of goodwill. There is no reason why anyone should attempt to pass hasty judgment and cause hard feelings that might last long after the present troubles between this country and Mexico have been recorded in their proper place in history.

Elsewhere in today's paper The Times publishes two letters which indicate that there is only the fullest desire on the part of both sides to get at the truth of this small "controversy" and to get it straightened out with the least possible friction and with justice to all.

SHERRY INSTITUTE

IMPROVES ITS STOCK

The Northwest Collegiate institute of Sherry purchased at the Northern Wisconsin State Fair at Chippewa Falls from J. W. Thomas, Sherry Wonder, a magnificent Duroc Jersey boar to place at the head of their Duroc Jersey herd. This boar was sired by Professor King, first prize age boar at the Northern Wisconsin Fair 1916. His sire won first prize at the Minneapolis state fair in 1915. The dam of Sherry Wonder was a magnificent 800 pound sow winning first prize in the age sow class. The sire of Sherry King also sired the first prize little of spring pigs winning the silver trophy at the Wisconsin State Fair, 1916.

The Northwest Collegiate institute after inspecting a number of herds feels assured that J. W. Thomas of North Bend has one of the choicest Duroc Jersey herds in the state. His winning at the Wisconsin State Fair at Milwaukee as well as at the leading fairs, bears out this statement. The Duroc Jersey swine continue to grow in popularity. This school, established on a large stock farm, makes possible an education for young people with either a large or small pocket-book, being very inexpensive. The practical training received there is also very valuable.

SAVING THE BABIES.

Every large city in the state of Wisconsin and many of the smaller communities will be represented at the seventh annual meeting of the American Association for Study and Prevention of Infant Mortality convening in Milwaukee, October 19th-21st inclusive. The Wisconsin delegation will be composed largely of physicians, nurses and club women, many of the women's clubs having appointed official delegates, while nurses engaged in public health work out in the state will take advantage of the fact that the Infant Mortality congress will be followed on the succeeding Monday and Tuesday by the annual meeting of the Wisconsin Nurses' association. All women's clubs in Wisconsin and other states of the middle west have been invited to affiliate with the association and send delegates.
